SUBJECT INDEX

Adenosine
Studies of the thermal dehydration reaction of $Ni(NCS)_2$ complexes with adenosine 249
Alloy
An optimised equilibrium phase diagram and solution thermodynamics of arsenic–lead alloys 1
Ammonium nitrate
The influence of Mn, Co and Cu cations on the thermal decomposition of NH_4NO_3 in pure form and supported on alumina 137
Ammonium perchlorate
Thermal decomposition of cured GAP–AP propellants containing catocene 255
Arsenic
An optimised equilibrium phase diagram and solution thermodynamics of arsenic–lead alloys 1

Barium compound
Thermal decomposition of precursors for $BaBiO_3$ prepared with amino acid complexes 285
Binary system
Excess enthalpies for binary mixtures of toluene, *p*-xylene or pseudocumene + methyl-*n*-alkyl ketones. Application of an extended cell model 35
Biological calorimetry
Microcalorimetric study on mitochondrial metabolism inhibited by toxicant 15
Determination of thermograms of bacterial growth and study of optimum growth temperature 19
Bismuth
Kristallisation der supraleitenden Bismut-Cupraten aus den Bismut-Gläser 229
Bismuth compound
Thermal decomposition of precursors for $BaBiO_3$ prepared with amino acid complexes 285
Blend
Thermal decomposition of cured GAP–AP propellants containing catocene 255

Caesium trifluorocadmiate
Propriétés thermodynamiques des trifluorocadmiates de rubidium et de césium ($RbCdF_3$, $CsCdF_3$) de 10 à 300 K. Transition de phase dans les fluoroperovskites 87
Calorific value
Volatile release profiles of some Turkish lignites 131
Calorimeter
Thermochemistry of pyridine and picolines complexes of *p*-chlorophenyldihaloarsines 25
Catalyst
Thermal decomposition of cured GAP–AP propellants containing catocene 255
Catocene
Thermal decomposition of cured GAP–AP propellants containing catocene 255
Chelate
Preparation and thermal decomposition of solid state lanthanide(III) and yttrium(III) chelates of ethylenediaminetetraacetic acid 267
Chlorophenyldihaloarsine
Thermochemistry of pyridine and picolines complexes of *p*-chlorophenyldihaloarsines 25
Coal
Influence of the mineral matter content on the combustion characteristics of Turkish lignites 119
Volatile release profiles of some Turkish lignites 131
Combustion
Influence of the mineral matter content on the combustion characteristics of Turkish lignites 119
Composite
Thermal decomposition of cured GAP–AP propellants containing catocene 255
Co-ordination
Estimates for the enthalpy of formation of rare-earth oxyhalides with the P4/*nmm* structure 45
New oxygen or nitrogen carriers 107
Studies of the thermal dehydration reaction of $Ni(NCS)_2$ complexes with adenosine 249
Crystallization
Gel synthesis and crystallization of $Li_2O \cdot 7GeO_2$ glass powders 169
Kristallisation der supraleitenden Bismut-Cupraten aus den Bismut-Gläser 229

Cuprate
Kristallisation der supraleitenden Bismut-Cupraten aus den Bismut-Gläser 229

Decomposition
The influence of Mn, Co and Cu cations on the thermal decomposition of NH_4NO_3 in pure form and supported on alumina 137
Etude thermoanalytique et spectrale de benzodiazépines. Partie 3. Oxazépam 191
Polymorphisme et pseudopolymorphisme de l'oxazépam 213
Thermal decomposition of cured GAP–AP propellants containing catocene 255
Dehydration
Studies of the thermal dehydration reaction of $Ni(NCS)_2$ complexes with adenosine 249
DSC
Reaction rates as a function of pressure, temperature and concentration by heat-conduction differential scanning calorimetry 147
The thermoanalytical study of some amino-derivatives of 1,3,5-trinitrobenzene 157
Importance pour l'identification du lorazépam de l'étude thermoanalytique et spectrale de son produit de dégradation la 6-chloro-4-(*O*-chlorophényl)2-formyl quinazoline 177
Etude thermoanalytique et spectrale de benzodiazépines. Partie 3. Oxazépam 191
Polymorphisme et pseudopolymorphisme de l'oxazépam 213
Thermal decomposition of precursors for $BaBiO_3$ prepared with amino acid complexes 285
Feasibility study on the determination of accurate temperature values for the ICTA certified reference materials: potassium chromate 331
DTA
Influence of the mineral matter content on the combustion characteristics of Turkish lignites 119
The influence of Mn, Co and Cu cations on the thermal decomposition of NH_4NO_3 in pure form and supported on alumina 137
Gel synthesis and crystallization of $Li_2O \cdot 7GeO_2$ glass powders 169
Etude thermoanalytique et spectrale de benzodiazépines. Partie 3. Oxazépam 191
Studies of the thermal dehydration reaction of $Ni(NCS)_2$ complexes with adenosine 249
Thermal decomposition of cured GAP–AP propellants containing catocene 255
Preparation and thermal decomposition of solid state lanthanide(III) and yttrium(III) chelates of ethylenediaminetetraacetic acid 267
A thermal study of sol–gel silica doped with Fe(II) 279
Feasibility study on the determination of accurate temperature values for the ICTA certified reference materials: potassium chromate 331
Investigations on the phase behavior of "Pagodan" 335
DTG
Influence of the mineral matter content on the combustion characteristics of Turkish lignites 119
Volatile release profiles of some Turkish lignites 131
The influence of Mn, Co and Cu cations on the thermal decomposition of NH_4NO_3 in pure form and supported on alumina 137
Studies of the thermal dehydration reaction of $Ni(NCS)_2$ complexes with adenosine 249
Preparation and thermal decomposition of solid state lanthanide(III) and yttrium(III) chelates of ethylenediaminetetraacetic acid 267

EDTA
Preparation and thermal decomposition of solid state lanthanide(III) and yttrium(III) chelates of ethylenediaminetetraacetic acid 267
EGA
Thermal decomposition of precursors for $BaBiO_3$ prepared with amino acid complexes 285
Enthalpy
On the thermodynamics of the ClOO and OClO radicals 81
Excess molar enthalpy
Excess enthalpies for binary mixtures of toluene, *p*-xylene or pseudocumene + methyl-*n*-alkyl ketones. Application of an extended cell model 35

Film
The suitability of various substrates for $YBa_2Cu_3O_y$ thin film formation: thermodynamic and structural considerations 301
Fluoroperovskite
Etude thermodynamique des fluoroperovskites $KCaF_3$, $CsCaF_3$ et $KCdF_3$ dans le domaine de basses températures (10 à 300 K) 95
Fusion
Polymorphisme et pseudopolymorphisme de l'oxazépam 213

GAP
Thermal decomposition of cured GAP–AP propellants containing catocene 255
Gel
Gel synthesis and crystallization of $Li_2O \cdot 7GeO_2$ glass powders 169
A thermal study of sol–gel silica doped with Fe(II) 279
Germanium compound
Gel synthesis and crystallization of $Li_2O \cdot 7GeO_2$ glass powders 169
Glass
Gel synthesis and crystallization of $Li_2O \cdot 7GeO_2$ glass powders 169

Heat capacity
On the thermodynamics of the ClOO and OClO radicals 81
Propriétés thermodynamiques des trifluorocadmiates de rubidium et de césium ($RbCdF_3$, $CsCdF_3$) de 10 à 300 K. Transition de phase dans les fluoroperovskites 87
Etude thermodynamique des fluoroperovskites $KCaF_3$, $CsCaF_3$ et $KCdF_3$ dans le domaine de basses températures (10 à 300 K) 95
Heat of dissociation
Estimates for the enthalpy of formation of rare-earth oxyhalides with the P4/*nmm* structure 45
Heat of formation
Estimates for the enthalpy of formation of rare-earth oxyhalides with the P4/*nmm* structure 45
Hexane
Étude de l'adsorption et de la diffusion de différents hydrocarbures saturés dans le double système poreux de la H-offrétite 315
Humic acid
Microcalorimetric study on mitochondrial metabolism inhibited by toxicant 15
Hydrocarbon
Étude de l'adsorption et de la diffusion de différents hydrocarbures saturés dans le double système poreux de la H-offrétite 315

ICTA
Feasibility study on the determination of accurate temperature values for the ICTA certified reference materials: potassium chromate 331
Iron
A thermal study of sol–gel silica doped with Fe(II) 279
IRS
Thermochemistry of pyridine and picolines complexes of *p*-chlorophenyldihaloarsines 25
Importance pour l'identification du lorazépam de l'étude thermoanalytique et spectrale de son produit de dégradation la 6-chloro-4-(*O*-chlorophényl)2-formyl quinazoline 177
Thermal decomposition of precursors for $BaBiO_3$ prepared with amino acid complexes 285
Isomer
On the thermodynamics of the ClOO and OClO radicals 81
Isothermal
Étude de l'adsorption et de la diffusion de différents hydrocarbures saturés dans le double système poreux de la H-offrétite 315

Ketone
Excess enthalpies for binary mixtures of toluene, *p*-xylene or pseudocumene + methyl-*n*-alkyl ketones. Application of an extended cell model 35

Lanthanon
Estimates for the enthalpy of formation of rare-earth oxyhalides with the P4/*nmm* structure 45
Lanthanon compound
Preparation and thermal decomposition of solid state lanthanide(III) and yttrium(III) chelates of ethylenediaminetetraacetic acid 267
Lattice energy
Estimates for the enthalpy of formation of rare-earth oxyhalides with the P4/*nmm* structure 45

Lead
An optimised equilibrium phase diagram and solution thermodynamics of arsenic–lead alloys 1
Lignite
Influence of the mineral matter content on the combustion characteristics of Turkish lignites 119
Volatile release profiles of some Turkish lignites 131
Lithium compound
Gel synthesis and crystallization of $Li_2O \cdot 7GeO_2$ glass powders 169
Lorazepam
Importance pour l'identification du lorazépam de l'étude thermoanalytique et spectrale de son produit de dégradation la 6-chloro-4-(*O*-chlorophényl)2-formyl quinazoline 177

Low temperature
Etude thermodynamique des fluoroperovskites $KCaF_3$, $CsCaF_3$ et $KCdF_3$ dans le domaine de basses températures (10 à 300 K) 95

Metabolism
Microcalorimetric study on mitochondrial metabolism inhibited by toxicant 15
Mitochondria
Microcalorimetric study on mitochondrial metabolism inhibited by toxicant 15
Mixed oxide
Thermal decomposition of precursors for $BaBiO_3$ prepared with amino acid complexes 285
Model
An optimised equilibrium phase diagram and solution thermodynamics of arsenic–lead alloys 1
Excess enthalpies for binary mixtures of toluene, *p*-xylene or pseudocumene + methyl-*n*-alkyl ketones. Application of an extended cell model 35
On the thermodynamics of the ClOO and OClO radicals 81
The suitability of various substrates for $YBa_2Cu_3O_y$ thin film formation: thermodynamic and structural considerations 301
Étude de l'adsorption et de la diffusion de différents hydrocarbures saturés dans le double système poreux de la H-offrétite 315
MS
Importance pour l'identification du lorazépam de l'étude thermoanalytique et spectrale de son produit de dégradation la 6-chloro-4-(*O*-chlorophényl)2-formyl quinazoline 177
MVST
Thermal decomposition of cured GAP–AP propellants containing catocene 255

Nickel compound
New oxygen or nitrogen carriers 107
Studies of the thermal dehydration reaction of $Ni(NCS)_2$ complexes with adenosine 249
NMR
Etude thermoanalytique et spectrale de benzodiazépines. Partie 3. Oxazépam 191
Polymorphisme et pseudopolymorphisme de l'oxazépam 213
Non-isothermal
Étude de l'adsorption et de la diffusion de différents hydrocarbures saturés dans le double système poreux de la H-offrétite 315

Oxazepam
Etude thermoanalytique et spectrale de benzodiazépines. Partie 3. Oxazépam 191
Polymorphisme et pseudopolymorphisme de l'oxazépam 213
Oxide
Influence of the mineral matter content on the combustion characteristics of Turkish lignites 119
Oxyhalide
Estimates for the enthalpy of formation of rare-earth oxyhalides with the P4/*nmm* structure 45

Pagodan
Investigations on the phase behavior of "Pagodan" 335
Perovskite
Etude thermodynamique des fluoroperovskites $KCaF_3$, $CsCaF_3$ et $KCdF_3$ dans le domaine de basses températures (10 à 300 K) 95
Thermal decomposition of precursors for $BaBiO_3$ prepared with amino acid complexes 285
Phase transition
Propriétés thermodynamiques des trifluorocadmiates de rubidium et de césium ($RbCdF_3$, $CsCdF_3$) de 10 à 300 K. Transition de phase dans les fluoroperovskites 87
Etude thermodynamique des fluoroperovskites $KCaF_3$, $CsCaF_3$ et $KCdF_3$ dans le domaine de basses températures (10 à 300 K) 95
Investigations on the phase behavior of "Pagodan" 335
Picoline
Thermochemistry of pyridine and picolines complexes of *p*-chlorophenyldihaloarsines 25
Polymer
Thermal decomposition of cured GAP–AP propellants containing catocene 255
Polymorphism
Polymorphisme et pseudopolymorphisme de l'oxazépam 213
Potassium chromate
Feasibility study on the determination of accurate temperature values for the ICTA certified reference materials: potassium chromate 331
Precision
Feasibility study on the determination of accurate temperature values for the ICTA certified reference materials: potassium chromate 331

Pressure
Reaction rates as a function of pressure, temperature and concentration by heat-conduction differential scanning calorimetry 147
Program
On the thermodynamics of the ClOO and OClO radicals 81
Propellant
Thermal decomposition of cured GAP–AP propellants containing catocene 255
Proximate analysis
Influence of the mineral matter content on the combustion characteristics of Turkish lignites 119
Volatile release profiles of some Turkish lignites 131
Pyridine
Thermochemistry of pyridine and picolines complexes of *p*-chlorophenyldihaloarsines 25

Radical
On the thermodynamics of the ClOO and OClO radicals 81
Rubidium trifluorocadmiate
Propriétés thermodynamiques des trifluorocadmiates de rubidium et de césium ($RbCdF_3$, $CsCdF_3$) de 10 à 300 K. Transition de phase dans les fluoroperovskites 87

SCD
Thermal decomposition of precursors for $BaBiO_3$ prepared with amino acid complexes 285
Silica
A thermal study of sol–gel silica doped with Fe(II) 279
Simulation
The suitability of various substrates for $YBa_2Cu_3O_y$ thin film formation: thermodynamic and structural considerations 301
Smoothness
Estimates for the enthalpy of formation of rare-earth oxyhalides with the P4/*nmm* structure 45
Sol
A thermal study of sol–gel silica doped with Fe(II) 279
Specific surface area
The influence of Mn, Co and Cu cations on the thermal decomposition of NH_4NO_3 in pure form and supported on alumina 137
Stability
Propriétés thermodynamiques des trifluorocadmiates de rubidium et de césium ($RbCdF_3$, $CsCdF_3$) de 10 à 300 K. Transition de phase dans les fluoroperovskites 87
The influence of Mn, Co and Cu cations on the thermal decomposition of NH_4NO_3 in pure form and supported on alumina 137
Feasibility study on the determination of accurate temperature values for the ICTA certified reference materials: potassium chromate 331
Superconductor
Kristallisation der supraleitenden Bismut-Cupraten aus den Bismut-Gläser 229
The suitability of various substrates for $YBa_2Cu_3O_y$ thin film formation: thermodynamic and structural considerations 301

TATB
The thermoanalytical study of some amino-derivatives of 1,3,5-trinitrobenzene 157
Temperature
Reaction rates as a function of pressure, temperature and concentration by heat-conduction differential scanning calorimetry 147
TG
Thermochemistry of pyridine and picolines complexes of *p*-chlorophenyldihaloarsines 25
New oxygen or nitrogen carriers 107
The influence of Mn, Co and Cu cations on the thermal decomposition of NH_4NO_3 in pure form and supported on alumina 137
Gel synthesis and crystallization of $Li_2O \cdot 7GeO_2$ glass powders 169
Importance pour l'identification du lorazépam de l'étude thermoanalytique et spectrale de son produit de dégradation la 6-chloro-4-(*O*-chlorophényl)2-formyl quinazoline 177
Etude thermoanalytique et spectrale de benzodiazépines. Partie 3. Oxazépam 191
Polymorphisme et pseudopolymorphisme de l'oxazépam 213
Studies of the thermal dehydration reaction of $Ni(NCS)_2$ complexes with adenosine 249
Preparation and thermal decomposition of solid state lanthanide(III) and yttrium(III) chelates of ethylenediaminetetraacetic acid 267
TGA
New oxygen or nitrogen carriers 107
Volatile release profiles of some Turkish lignites 131
The thermoanalytical study of some amino-derivatives of 1,3,5-trinitrobenzene 157
Thermal decomposition of cured GAP–AP propellants containing catocene 255

A thermal study of sol–gel silica doped with Fe(II) 279
Thermal decomposition of precursors for $BaBiO_3$ prepared with amino acid complexes 285
Thermodynamics
An optimised equilibrium phase diagram and solution thermodynamics of arsenic–lead alloys 1
On the thermodynamics of the ClOO and OClO radicals 81
Etude thermodynamique des fluoroperovskites $KCaF_3$, $CsCaF_3$ et $KCdF_3$ dans le domaine de basses températures (10 à 300 K) 95
Thin film
The suitability of various substrates for $YBa_2Cu_3O_y$ thin film formation: thermodynamic and structural considerations 301
TNB
The thermoanalytical study of some amino-derivatives of 1,3,5-trinitrobenzene 157
Transition
New oxygen or nitrogen carriers 107
Etude thermoanalytique et spectrale de benzodiazépines. Partie 3. Oxazépam 191
Polymorphisme et pseudopolymorphisme de l'oxazépam 213
Feasibility study on the determination of accurate temperature values for the ICTA certified reference materials: potassium chromate 331
XRD
Gel synthesis and crystallization of $Li_2O \cdot 7GeO_2$ glass powders 169
Importance pour l'identification du lorazépam de l'étude thermoanalytique et spectrale de son produit de dégradation la 6-chloro-4-(*O*-chlorophényl)2-formyl quinazoline 177
Preparation and thermal decomposition of solid state lanthanide(III) and yttrium(III) chelates of ethylenediaminetetraacetic acid 267
Thermal decomposition of precursors for $BaBiO_3$ prepared with amino acid complexes 285
Yttrium compound
Preparation and thermal decomposition of solid state lanthanide(III) and yttrium(III) chelates of ethylenediaminetetraacetic acid 267
